I am pleased to share with you, on behalf of the Company's Board of Directors, the Annual Board of Directors Report for the financial year 2023. This report includes a comprehensive analysis of Advanced operational performance and its affiliates, transformation initiatives in the areas of human capital and digitization, business strategy and growth projects, as well as environmental, social and governance performance.

**2023
Retention
Rate**

96%

Year 2023 witnessed significant challenges for the petrochemical industry and market, characterized by geopolitical tension, economic uncertainty, soaring prices of raw materials, interest rates and additional capacity in the Chinese market.

Despite these challenges, Advanced has remained steadfast in achieving its objectives of meeting the requirements of its customers by maintaining prominent levels of operational performance and sales, adopting continuous rationalization of operations, raising the level of reliability, and enhancing the integrity of its assets.

With regards to the growth strategy, a framework support agreement was signed with Shareek program to enable maximizing the company's local investment plan to achieve Vision 2030, in addition to announcing a strategic project in food security for the production of Methionine. Moreover, signing an agreement with Jubail United Petrochemical Company (a subsidiary of SABIC) to establish a pipeline and supply the associated gas product.

Moreover, the current project of Advanced Polyolefins Company is expected to be completed by the second half of 2024. The Board of Directors is confident that Advanced strategies will be successfully achieved through the commitment of all employees to a culture of excellence.

In conclusion, and on behalf of the Board of Directors and the employees of Advanced, I would like to express my sincere thanks and appreciation to the Custodian of the Two Holy Mosques King Salman bin Abdulaziz Al Saud, and his Crown Prince, His Royal Highness Prince Mohammed bin Salman bin Abdulaziz Al Saud, and our wishes for success to all in 2024.

At Advanced, we focus on responsible care, human capital, customers, production and reliability, profitability and growth as pillars for sustainable future

PRESIDENT AND CEO'S STATEMENT

The company has continued to enhance its performance by achieving the sustainability of the operational excellence and development, as well as continuously implementing growth and transformation initiatives.

Advanced sustainable investment in responsible care, human capital, digitization and maintaining the reliability of factories has led to the achievement of twenty-four million safe working hours, sustainable and safe operation with a reliability rate of more than 98%, and a production rate that exceeded the maximum production capacity, which confirmed the company's commitment to the future plan towards excellence in the environment, social and governance.

Advanced pays great attention to the aspects of responsible care, developing and improving the reliability of its plants, maintaining a strong financial position, achieving outstanding performance in accordance with industry standards, and profitability has been maintained during tough times of the year through careful attention to operational excellence and reviewing market dynamics.

The company also works to invest in its human resources, qualify them administratively and

technically, develop their skills, and provide them with continuous development programs and training opportunities as a contribution to achieving sustainability represented in the company's Vision and Goals.

Digital transformation has been another essential element of the company's strategy, as it enabled it to enhance operational efficiency, reduce costs, and improve decision-making processes as the future depends on technological progress. Also, the company is committed to staying at the forefront of this development while maintaining cybersecurity requirements in all its businesses.

In conclusion, I would like to thank the Board of Directors for their unlimited support in all aspects of the business as well as all the employees of Advanced Company and its subsidiaries, and we look forward to continuous improvement and innovation to achieve a "Culture of Excellence", and I wish all the best and success to everyone in 2024.

Eng. Fahad S. Al Matrafi

President and CEO

Mr. Abdulaziz S. Al-Ardhi

Chief Financial Officer

CHIEF FINANCIAL OFFICER'S STATEMENT

Advanced will continue to invest in enhancement programs to improve and raise the efficiency of spending by adopting the concept of shared services and maintaining sufficient liquidity to meet the needs of the company's investments to create sustainable value for its shareholders.

Despite the market challenges, Advanced has implemented several profitability initiatives across all areas of the business including production, costs, marketing, financing and cash management, contributing to a net profit of SAR 171 million, a decrease of 42% compared to 2022 (SAR 295 million), due to lower profit margins and sales quantities resulting from the decrease in the amount of propylene as a result of the scheduled periodic maintenance of SATORP. In addition to that, the maintenance work of the Propane pipeline of Jubail companies to improve reliability.

Advanced has reinforced its cost-efficient operating model that balances costs and asset preservation in a manner that ensures their safe and reliable operation. Advanced Company has restructured the credit facilities by obtaining better competitive rates than previous facilities to reduce financing costs and maintain sufficient liquidity for the company's future projects.

In addition, the company has implemented several programs that will improve and raise efficiency to reduce its capital and operating expenses and establish a marketing subsidiary of the company to

market its products, in addition to implementing special programs that utilize shared services between subsidiaries, which contributes to reducing costs.

With regard to the performance of SK Advanced, the management of Advanced company is currently working intensively with the rest of the partners to search for all options that will improve the company's results, and we trust these efforts will yield satisfactory results for everyone in the future.

And during the coming period, Advanced will continue to invest in its capital programs in its main sectors to create sustainable value for its stakeholders, taking into account the various business challenges and risks, and to mitigate these risks, Advanced Company has implemented effective strategies through financial risk management by developing plans that reduce these challenges in line with growth initiatives and economic hedging measures.

Advanced achieved a number of milestones, including implementing the shared services concept in the group to distribute the costs among Advanced subsidiaries; reducing project financing cost

2023 Consolidated EBITDA reached

ADVANCED AT A GLANCE

Advanced Petrochemical Company (Advanced) or (Company) is engaged in the manufacture of plastics in primary forms, investment in industrial projects including, but not limited to, projects relating to petrochemical, chemical, basic and conversion industries and industries relating to renewable energy and to establish, operate and own industrial projects both within and outside of the Kingdom of Saudi Arabia.

In May 2005, Advanced started the construction of its integrated petrochemical plants, located in Jubail Industrial City in the Eastern Province of the Kingdom of Saudi Arabia, which started its commercial production from its polypropylene facility on the March 03, 2008. The integrated plant is designed to produce 455,000 tons per year of propylene and 450,000 tons per year of polypropylene (nameplate capacities) from its production facility. Advanced utilizes the PDH-Catofin Technology, which is licensed by LummusTechnology, for the production of propylene, and it uses the Novolen Technology for the production of various polypropylene products. The products are marketed locally and globally through well-renowned off-takers. The Company's products are used in plastic applications such as cast film, BOPP films, fibers, filaments, woven tapes, non woven fabrics, and injection molding. Since the inception of Advanced, it has established itself as one of the major players in the petrochemical industry in the region.

Automotive components

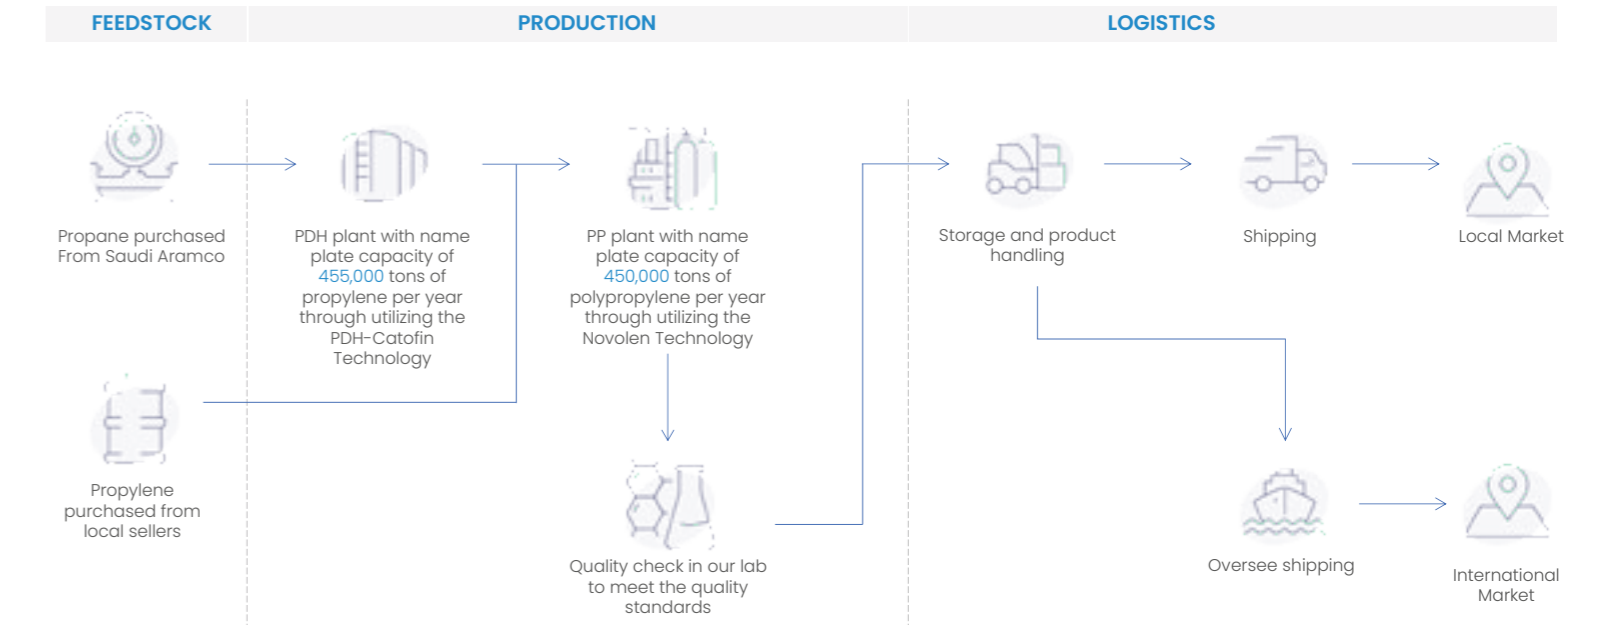

Durable textiles

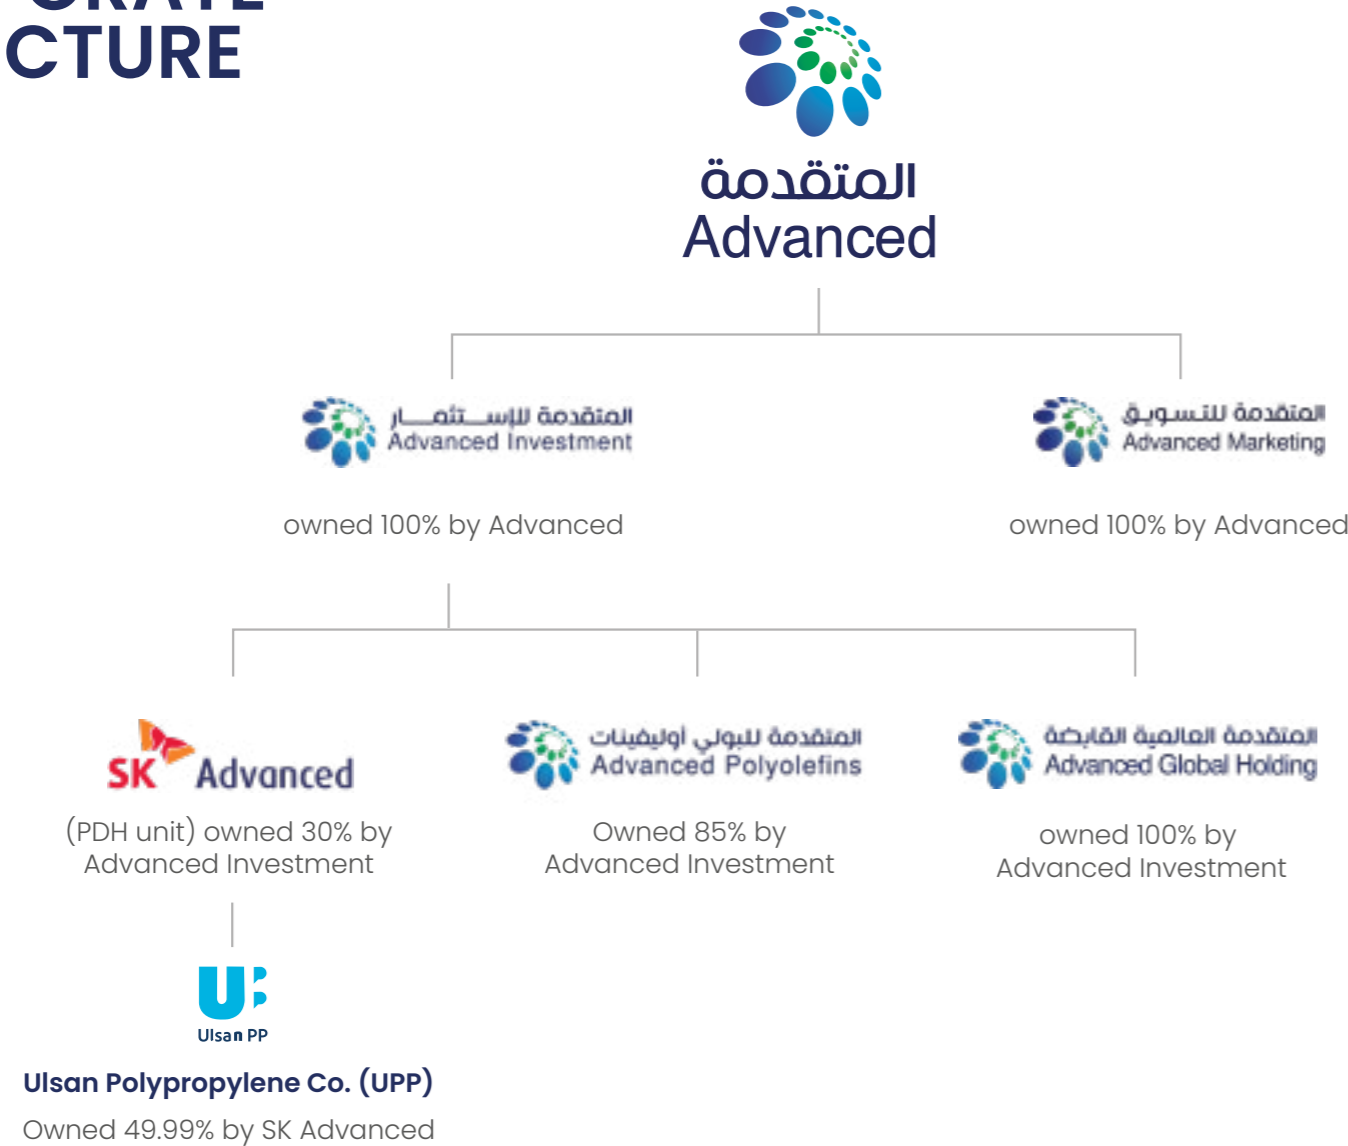

Medical applications

Business Model

CORPORATE STRUCTURE

The Main Activity of the Company and its Subsidiaries:

The main activity of the Company is in the field of manufacturing and converting petrochemicals, which includes the production of propylene and polypropylene and the marketing and selling of the final product (polypropylene) inside the Kingdom by the Company, and outside the Kingdom through international offtakers. The company's main product, which is polypropylene, generated a revenue of 2,374 Million SAR in 2023.

Advanced Global Investment Company (AGIC):

It is a Saudi company, Single Shareholder limited liability Company wholly owned by Advanced, established in August 2012 with a paid-up capital of one million Saudi Riyals and its activity is to invest in industrial projects including projects relating to petrochemical and chemical industries, basic and conversion industries, and to establish, operate and own industrial projects both within and outside of the Kingdom of Saudi Arabia.

The company has industrial investments in (i) SK Advanced Ltd. in Ulsan City, South Korea, in which it owns 30% in equity, and the realized share of losses by the end of 2023 amounted to a total of 97 Million Saudi riyals, and (ii) Advanced Polyolefins Industry Company (APOC) with ownership of 85% by Advanced Global Investment Company and 15% is owned by SK Gas Petrochemical Pte. Ltd. The total equity injection for APOC from AGIC is SAR 2.18 Billion which has been partly funded by its own cash as well as by borrowing through Revolving Credit Facility (RCF).

Advanced Global Marketing Company (AGMC):

It is a Saudi company, Single Shareholder limited liability Company wholly owned by Advanced, established in March 2012 with a paid-up capital of one million Saudi Riyals. The principal objective of the Company are to market products of petrochemical, chemical, basic and downstream industries as well as the provision of marketing services on behalf of Advanced, APOC and Advanced's future growth projects, within and outside of the Kingdom of Saudi Arabia. It has not recorded any assets, liabilities or any operations including any potential liabilities for the period ending on December 31, 2023. Consequently, there is no impact on the Company's business volume during the fiscal year 2023.

Advanced Global Holding Company Ltd.:

It is a limited liability company whose activity is to invest in the production and marketing of petrochemical and chemical products, and it was registered in Luxembourg in February 2014 with a paid-up capital of one hundred USD with a 100% investment by Advanced Global Investment Company, and the amount of the capital contribution during the year 2014 was deposited in the company's bank account and it did not register any assets, liabilities, or any operations, including any potential liabilities, for the period ending on December 31, 2023. Consequently, there is no impact on the volume of the Company's business during the fiscal year 2023.

Advanced Polyolefins Industry Company (APOC):

Advanced Polyolefins Industry Company is a Saudi mixed closed joint stock company registered in Jubail, Kingdom of Saudi Arabia with a paid-up capital of (2,210,625,000) Saudi Riyals and 85% is owned by Advanced Global Investment Company (remaining 15% is owned by SK Gas Petrochemical Pte. Ltd., a company organized and existing under the laws of Republic of Singapore). The Company has not commenced its commercial operations and is under construction phase which is expected to be completed by H2 2024.

RESPONSIBLE CARE

Responsible Care is the global chemical industry's unifying commitment to the safe management of chemicals throughout their life cycle, while promoting their role in improving quality of life and contributing to sustainable development. As a signatory to the Responsible Care Global Charter, Advanced Petrochemical Company will actively strengthen the Responsible Care initiative worldwide and is committed to:

Achieving
24
Million safe
man-hours without
lost workday Injuries
in 2023.

01

A Corporate Leadership Culture that proactively supports safe chemicals management through the global Responsible Care initiative.

03

Strengthening Chemicals Management Systems by participating in the development and implementation of lifecycle-oriented, sound-science and risk-based chemical safety legislation and best practices

05

Engaging Stakeholders, understanding and responding to their concerns and expectations for safer operations and products and communicating openly on our performance and products

02

Safeguarding People and the Environment by continuously improving our environmental, health and safety performance; the security of our facilities, processes and technologies; and by driving continuous improvement in chemical product safety and stewardship throughout the supply chain.

04

Influencing Business Partners to promote the safe management of chemicals within their own operations.

06

Contributing to Sustainability through improved performance, expanded economic opportunities and the development of innovative technologies and other solutions to societal challenges

Advanced's Management System has embedded international requirements and best practices needed to maintain responsible operation with objectives of developing and maintaining a safe work environment for employees and maintaining the contribution to achieve excellent environmental performance.

Advanced has an Integrated Management System covering Quality, Environment, Occupational Health & Safety, Process Safety, Responsible Care & Cybersecurity, which makes it committed to:

Deliver

Quality products & services that meet stakeholders' expectations.

Promote

Quality products & services that meet stakeholders' expectations.

Comply

With all relevant laws, regulations, standards and other applicable requirements.

Demonstrate

With all relevant laws, regulations, standards and other applicable requirements.

Consult

Our policies ensure we consult and engage the relevant personnel in decision making for work related activities.

Protect

Our policies ensure we consult and engage the relevant personnel in decision making for work related activities.

Prevent

Quality products & services that meet stakeholders' expectations.

Improve

Our business practices through organizational excellence, create a competitive work environment in ethical ways.

Environment

Advanced recognizes the emerging challenges facing our eco-system and is committed to improving the environmental performance of its operations, products and services. Our greatest contribution to meeting the challenge is to pioneer new technologies for environmentally progressive products and services. Advanced has implemented aggressive targets for improving its environmental performance for its operations by adopting an Environment Management system that is aligned with industry best practices and international Industry standards.

Energy efficiency, Waste reduction and recycling, emission reduction and conservation of natural resources are the key Goals in our Environmental Management System. Long-term plans are set for emission reduction, energy efficiency and conservation of natural resources to leverage our company's positive impact on the environment.

Occupational Health and Safety

Advanced is committed to a well-developed Occupational Health and safety program that will excel in the protection of our employees, Assets, and Communities from Occupational Incidents. In addition, Advanced Continue supports the Industry's Guiding principles in Occupational Health and safety to comply with government regulations through Advanced Leadership practices.

Employees at every level, including senior management, are embedded the Occupational health and safety practices as part of Advanced Culture in routine activities. In addition, management supports the coordination of safety among all workers and contractors on the job site and has encouraged compliance toward Occupational Health and Safety Practices.

Management encourages employees' engagement and participation in occupational Health and safety programs and initiatives and provides proper required Resources, training, and guidance to achieve the concept of continuous improvement on the part of Occupational health and safety. Employees feel responsible for following all Occupational Health and safety practices, maintaining the necessary protection measures to work safely, and, wherever possible, improving safety standards. An injury and accident-free workplace is our optimum goal, and Through the collaborative efforts of Advanced team, we can accomplish this goal.

Quality

Quality and continuous improvement are the basic operating principles at Advanced. As a pioneer institution in the sector in terms of quality, we are conscious of our responsibilities for the stakeholders. We have adopted sustainable growth as our lifestyle, our target is to present products and services, which will ensure the greatest benefit for our customers, as the best solution partner and to ensure repeated customer satisfaction.

Reducing our costs, increasing our long-term profitability, keeping our future safe can be ensured if we work with our employees within the framework of collaboration and trust. In this context our objective is to adopt Total Quality Management as a lifestyle and fulfill its needs with a view to ensuring quality consciousness in all activity fields and service units systematically and regularly, thereby contributing to our management strategies. At Advanced, we are committed to obtain business perfection through Total Quality Management & Management Strategies.

Advanced Management System is certified for :

- Responsible Care (RC 14001:2015) & Environment Management System (ISO 14001:2015)
- Occupational Health and Safety Management (ISO 45001:2018)
- Quality Management System (ISO 9001:2015)
- Information Security Management System (ISO/IEC 27001:2013)

BUSINESS PERFORMANCE

Advanced has achieved a net profit of SAR 171 million in 2023. The reason of the decrease in the net profit is due to the reduction in the net sales price and volumes by %15 and %5 respectively; despite of the reduction in propane and purchased propylene prices by %24 and %17 respectively, as well as the reduction in share of loss in SK Advanced investment by SAR 12 million.

ESG Excellence: Advancing Sustainability, Governance, and Social Impact Throughout the Year

Advanced commitment to achieving ESG excellence is firmly anchored in Advanced values. The balance among, environmental protection, social responsibility and economic performance is an integral part of Advanced culture and an embedded part of Advanced business strategies.

At Advanced, we strive to create more value for our stakeholders, including our commitment and contribution to the initiatives related to Environment, Social, and Governance. We aim to innovate new initiatives for sustainable development while shaping our business responsibly and increasing our economic success. Our ESG framework reflects plans and performance to meet and exceed stakeholders' expectations.

Advanced ESG Report for 2021 marks the inception of our journey towards ESG excellence.

Published in 2022, this report reflects Advanced's proactive stance on ESG investment and its commitment to mitigating globally identified ESG risks. The maturity of Advanced's ESG approach continued to evolve in the 2022 ESG report, published in 2023. Advanced is dedicated to further advancing its journey of positive ESG contribution, striving to enhance its positive impact while minimizing negative effects across all aspects of ESG.

More information is available at:

ESG Report

LONG TERM ESG OBJECTIVES

BY 2030, THE COMPANY AIMS TO REDUCE GHG EMISSIONS AND ENERGY INTENSITY BY 13%; REDUCE WATER INTENSITY BY 26%; AND IMPROVE MATERIAL EFFECTIVENESS BY 26%

Using 2017 as the baseline year for sustainability improvements, in 2018 Advanced launched its Sustainability Program. This marked the start of a journey towards lowering environmental impacts and enhancing efficiency. Advanced appreciates that it will take time to develop and execute various elements of this program. Therefore, the company set 2030 as its target measurement year. 2030 is also a critical milestone for reducing CO₂ emissions. By 2030, the company aims to reduce GHG emissions and energy intensity by 13%; reduce water intensity by 26%; and improve material effectiveness by 26%.

The company also deepened its efforts in Corporate Social Responsibility (CSR) and joined a number of initiatives.

Advanced's long-term strategy is one of continued growth in the chemicals sector and it is aiming for multiples of our current size. The company also wants to be recognized as a leader in operational and manufacturing excellence

in the petrochemical sector, while complying with, and improving performance across, all aspects of ESG.

In support of its growth strategy, Advanced is currently executing its multi-billion-dollar Propane Dehydrogenation; Polypropylene & Isopropanol (PDH-PP-IPA) project in Jubail-2, Saudi Arabia, with approximately twice its current size, which is expected to come on stream by 2024. This project aims to produce various specialized PP product grades which will provide an edge for Advanced to penetrate value added PP segments.

Further to this, Advanced also obtained feedstock allocation from the Ministry of Energy in 2023 to set up an integrated world scale cracker complex. This project will also focus on producing various downstream products for conversion and for local industry. It will serve to enhance and boost local consumption and employment.

ESG FRAMEWORK

Advanced Petrochemical's ESG and Sustainability Framework summarizes what sustainability means for the company by identifying the key areas that need to be addressed and balanced. The Framework revolves around Advanced Petrochemicals values:

Advanced ESG framework is aligned with many national and international frameworks such as the UNGC, UNSDGs, and the Saudi Vision 2030. The framework has been developed based on ESG materiality assessment with the engagement of Stakeholders. The materiality assessment covered environmental, social, governance, and economic issues that range from broad global and national issues and

Initiatives such as climate change and commitment to carbon footprint reduction, supporting the Sustainable Development Goals (SDGs) of the United Nations, moving to contribute and support national 2030 Saudi Vision initiatives and programs.

Advanced is moving toward exploring further initiatives and projects to contribute to enhancing the maturity level of ESG performance in the years to come.

Governance and Social Responsibility

- Governance, ethics and compliance
- Community investment and CSR
- Customer Satisfaction
- Data Security

Workforce and Human Capital

BUSINESS STRATEGIES & RISK MANAGEMENT

FUTURE PLANS AND FORECASTS	56
ADVANCED POLYOLEFINS INDUSTRY COMPANY (APOC)	58
PDH-PP PROJECT	61
RISK MANAGEMENT	63

Strategic Agility: Navigating Risks and Seizing Opportunities for Exceptional Business Growth

Description of the Company's Significant Plans, Decisions, Forecasts and Risks:

Future Plans and Forecasts:

Advanced has achieved an operating profit of SAR 273.5 million during 2023 in spite of the severe downturn in the global petrochemical business.

The current petrochemical market dynamics continues to be very challenging due to low spreads between the feedstock and product prices. This has been primarily caused due to slower global growth in addition to several capacity additions in China. Needless to say, safety, plant reliability and dynamic marketing strategy will play a key role in mitigating the challenges. Further, several efficiency and profit improvement programs are planned to be implemented, some of which are commissioning by mid 2024, completion of Turnaround maintenance by Feb 2024 in order to fully utilize enhanced catalyst performance for the rest of year, implementation

of shared services for efficient resource utilization etc. Another strategy is centralizing sales and marketing function, and we have formed Advanced Global Marketing Company (AGMC) to handle sales from the existing as well as the new facilities.

Another critical activity to be successfully completed is the start up of our new PDH-PP project which is expected by second half of 2024. Further, in 2024, efforts will be maximized towards operational & maintenance readiness to ensure smooth and sustainable operations of the new plant(s).

From a growth strategy point of view, Advanced is evaluating several growth projects including a cracker complex; production of protein feed etc. It is noteworthy to mention that Advanced has signed the Support Framework Agreement with SHAREEK to enable Advanced to maximize its domestic investment plan, in which Advanced was selected as one of the companies eligible to participate in SHAREEK Program.

From the challenges point of view, SK Advanced's business has been negatively impacted due to the market down turn, resulting in a loss in the share of profits

of SKA, in spite of Advanced making an operating profit of SAR 273.5 Million in 2023. We are working very closely with them wherein several improvement plans and mitigation measures have put in place to minimize the impact of the market downturn to the maximum extent possible.

There are challenges also being faced with regards to product logistics cost, due to the tensions around the Red Sea. However, we are managing this situation by dynamically placing the product(s) into those regions to minimize the impact.

ADVANCED POLYOLEFINS INDUSTRY COMPANY (APOC)

ADVANCED'S LONG-TERM STRATEGY IS TO GROW IN THE CHEMICAL SECTOR TO MULTIPLES OF ITS CURRENT SIZE AND TO BE FURTHER RECOGNIZED AS A LEADER IN OPERATIONAL AND MANUFACTURING EXCELLENCE IN THE PETROCHEMICAL SECTOR WORLDWIDE.

Advanced follows both short-term as well as long-term business strategies. The short-term strategy is normally based on yearly companywide business objectives which focuses on Responsible Care, Human Capital, Commercial, Manufacturing Excellence and Profitability. These objectives are closely monitored on a monthly and quarterly basis by all levels in the organization, to take proactive and timely actions to ensure the KPIs and goals in the key areas are being achieved.

2023 Advanced has obtained feedstock allocation from the Ministry of Energy (MOE) for Cracker complex project

As already announced in the Saudi Exchange's website, Advanced is currently executing its Propane Dehydrogenation; Polypropylene & Isopropanol (PDH-PP-IPA) project in Jubail - 2, Saudi Arabia, with approximately twice its current size, which is expected to come on stream during second half of 2024. This project aims to produce various specialized PP product grades which

will provide an edge for Advanced to penetrate value added PP segments.

Further, Advanced has renewed the feedstock allocation from the Ministry of energy in 2023, to set up an integrated world scale cracker complex, which will focus on producing various downstream products to enhance local consumption and employment.

PDH-PP PROJECT

Advanced Polyolefins Industry Company (APOC) is executing the new greenfield propane dehydrogenation (PDH), polypropylene (PP) and isopropanol (IPA) complex with all required offsite and utilities in Jubail Industrial City, Saudi Arabia . The complex (currently undergoing construction) will be operated by APOC.

The Project will consist of:

- A single train PDH with a total nameplate capacity of 843 000 tons per year of Propylene using CATOFIN Technology
- Two PP trains, each with a nameplate capacity of 400 000 tons per year of Polypropylene using Spheripol and Spherizon technologies from LyondellBasell respectively.
- AAn IPA plant with a nameplate capacity of 70 000 tons per year of Isopropanol Commissioning is currently planned for Q4, 2026.

The scope of work for the Project has been divided into three different packages as follows:

- PDH/UTOS: the PDH plant as well as utilities and offsites associated with the plant, performed by Samsung Engineering Co.
- PP: both polypropylene plants, the warehouse and associated works performed by Technimont.
- OSBL: The scope includes pipelines to bring feedstock and utilities to the site as well as all non-process buildings. Separate local contractors are employed per discipline.

- IPA: The Front End Engineering Design (FEED) has been completed and EPC award is planned in Q1, 2024.

Overall Project Progress Status

The overall project has completed more than 39 million safe man-hours. The overall Project Execution Phase has achieved an Actual Progress about 88%.

RISK MANAGEMENT

Advanced has its own risk management platform wherein key business risks already identified were being continuously monitored with very clear action and mitigation plans.

The risk assessment process is carried out continuously at the strategic and operational level, whereby the relevant procedures are monitored periodically and continuously in order to deal with them and take the necessary preventive measures to minimize these risks. A dedicated Enterprise Risk Management Committee is involved in reviewing the business risks on a periodic basis to evaluate the residual risk and take any further preventive actions, as required.

The Board of Directors periodically reviews the top risks to ensure that special programs are in place in order to minimize the impact. The Executive Management of the Company also ensures that the risk management processes, and the followed systems operate efficiently at all levels of the Company.

Further, a business risk revalidation was carried out

in 2022, in coordination with third party experts, wherein the current risks were re-validated and new potential risks were identified. These business risks were categorized into "high"; "medium" and "low" risks, and controls as well as mitigations, as applicable, are in place. Further, the risk validation was done in 2023 by the internal team and outcome was presented to the Board.

Below is an insight into a few common and specific risks pertaining to the industry:

Advanced, similar to the rest of the petrochemical industries, may be sometimes exposed to some interruptions of its operating units, and to minimize the risks of these interruptions, the Company applies a comprehensive reliability program for all its units in addition to procuring comprehensive insurance for all its assets and business. The Company continuously monitors the management

of these risks and takes preventive measures that contribute to raising awareness and limiting their impact.

With regards to the risks identified in 2023, based on a risk revalidation done in 2022, the following are the continuing high risks:

Market price fluctuation:

Price fluctuation has been retained as "high" risk considering the current market behavior. Mitigations and close monitoring in the areas of cost optimization and sales efficiency improvement are already in place.

Equity investments:

Considering the high share of losses from Advanced affiliate in South Korea (SK Advanced) mainly due to drop in product prices and spreads, this risk has been retained as "high". Mitigations and close monitoring with

regards to actions to be taken to minimize the impact, are already in place.

Financing cost:

Due to the current increasing trend in the financing cost (SIBOR and LIBOR), and considering Advanced current growth requirements etc, "financing cost" has been retained as "high" risk. Mitigations and actions are being put in place for efficient cash management.

Other high risks which are typical are "Critical spare parts management" and "Cyber security breach". All relevant mitigations are in place and under close monitoring.

All of the above risks will be monitored on a regular basis to ensure mitigations and actions are in place as well as to review the requirement of further re-classification, if required.

Sustainable Governance: Balancing Stakeholder Interests with Long-Term Vision

GOVERNANCE FRAMEWORK

BOARD OF DIRECTORS

Board Formation

Advanced's Bylaws provides that the Company shall be managed by a board of directors composed of nine (9) members to be elected by the Ordinary General Assembly for a term not exceeding three years. The current Board (three independent members and six non-executive members) was elected by the Ordinary General Assembly Meeting held on August 31, 2022 for the current term that started October 1, 2022 for three years and ending on September 30, 2025.

The election of the Board was conducted in accordance with the provisions of the Companies Laws, the Regulations of the Capital Market Authority, the Company's Bylaws as well as the Policies, Standards & Procedures for the Board Membership approved by the General Assembly of the Company's shareholders.

Board Functions

The Board has the broadest powers in managing the Company and guiding its activities to achieve its objectives, which include:

01

Approving plans, policies, strategies and main objectives of the Company; supervising their implementation and reviewing them periodically; and ensuring that the human and financial resources required to fulfill them are available;

02

Setting rules and procedures for internal control and generally overseeing them;

03

supervising the management of the Company's finances, its cash flows as well as its financial and credit relationships with third parties;

04

Approval of significant contracts;

05

Determining succession planning and new Board and Audit Committee appointments in the event of vacancy; and

06

Overseeing Corporate Governance matters.

Members of the Board of Directors

Mr. Khalifa A. Al-Mulhem

Chairman of the Board of Directors
Non-executive Member

Experience & Qualifications:

Mr. Khalifa is one of the founders of the Company, in which he has vast experience in industrial and commercial projects, management of banking and banking services. He worked at the Saudi Industrial Development Fund "SIDF" and held multiple memberships in several Boards, such as: SABB, Saudi Spanish Bank, General Organization for Social Insurance "Governmental Authority", Nama Chemicals Company, Riyadh Cement Co. and Al-Ittefaq Steel Products Company.

Mr. Khalifa graduated from University of Colorado, Boulder, USA, in 1978 with bachelor's degree in Business Administration.

Tenure

Re-appointed as a Director from October 1, 2022, to September 30, 2025.

Board committees membership

- Chairman of the Executive Committee
- Member of the Nomination & Remuneration Committee

Board and committees membership in affiliates

- Chairman of the Board of Advanced Global Investment Company (AGIC)
- Chairman of the Board of Advanced Global Marketing Company (AGMC)
- Chairman of the Board of Advanced Polyolefins Industry Company (APOC)
- Chairman of the Executive Committee of APOC

Outside interests/commitments

- Chairman of Khalifa Abdullatif Abdullah Al-Mulhem Ltd. Company
- Vice Chairman of Walaa Cooperative Insurance Company
- Vice Chairman of Canadian Medical Center Company
- Chairman of ALPHA Capital

Nationality

Saudi

Mr. Waleed M. Al-Jaafari

Vice Chairman of the Board of Directors
Non-executive Member

Experience & Qualifications:

Mr. Waleed has wide experience in the administrative, financial, economic, medical services, industrial and insurance sectors. He held the position of Chairman and Managing Director of the Al-Dawaa Company for Medical Services (DMISCO) between 1998 and 2020, and He served as a faculty member at the Institute of Public Administration in the early 1980s and as the General Manager and member of the Board of Directors of the Gulf Stevedoring Contracting Company between 1985 and 1998.

Mr. Waleed graduated from King Saud University in 1982 with a bachelor's degree in economics.

Tenure

Re-appointed as a Director from October 1, 2022, to September 30, 2025.

Board committees membership

- Member of the Nominations & Remunerations Committee
- Member of the Investment Committee
- Member of the Audit Committee

Outside interests/commitments

- Board Member in Walaa Cooperative Insurance Company
- Board Member and Managing Director of Al-Dawaa Medical Services Company
- Board Member in Eastern Province Cement Company
- Chairman of the Board of Gulf Real Estate Development Company
- Board Member in Meshraf Real estate Company
- Board Member in Digital Business Systems Company
- Board Member in Siyaha Company

Nationality

Saudi

H.E. Eng. Abdallah I. Al Saadan

Member of the Board of Directors
Non-executive Member

Experience & Qualifications:

Eng. Abdullah has extensive experience in several leadership positions, where he had more than 30 years of experience at the Saudi Aramco. He held multiple positions during his career such as: Senior Vice President for Finance, Strategy and Development at Saudi Aramco, President and CEO of Saudi Aramco Mobil Refinery Co. Ltd. (SAMREF) and the Vice President of Saudi Aramco Gas Operations, and President of the Royal Commission for Jubail and Yanbu (Governmental Authority)

Eng. Abdullah acquired a master's degree in business administration from Massachusetts Institute of Technology, US, in 2007, and a master's in chemical engineering from University of Louisiana at Lafayette and a bachelor's degree in chemical engineering from King Fahad University of Petroleum & Minerals.

Assessment & Evaluation of the Board of Directors, its Committees and Directors Performance

The Nominations and Remuneration Committee decided during 2023 to conduct an evaluation for the Board Directors, its Committees and Directors' performance in order to uphold the highest standards of corporate governance and board under the direction of an independent external company, the GCC Board Directors Institute (GCC BDI).

GCC BDI has extensive experience in delivering top quality board evaluations for organizations across the GCC and has developed a proprietary tool to assist in the process. With over 15 years of experience in conducting board evaluations across the GCC, as well as an unrivalled knowledge of best practice in board effectiveness both internationally and locally, GCC BDI is the leading regional entity when it comes to the delivery of simultaneously customized and exhaustive board evaluations.

The Company ensures all recommendations of the evaluation are implemented in order to maintain the adoption of high standards in corporate governance.

Shareholders Engagement

The Board has approved the Shareholders Rights Policy whereby the rights of shareholders stated in Companies Law and the regulations of the Capital Market Authority are protected. The Board of Directors and the Executive Management ensure that all shareholders have access to their rights with fair treatment.

The Board also ensures that the communication between the company and the shareholders based on the common understanding of the strategic objectives and interests of the company and all Board members are informed of the opinions of the shareholders.

The company provides various channels for investors to reach out the company, such as, the company's website, emails, direct line telephone, AGM Q&A, social media platforms, conference calls and media.

The Company's Policy on Dividend Distribution

The annual net profits of the company are distributed in accordance with the

provisions of the company's Bylaws and the Dividends Distribution Policy, as follows:

01 Ten percent (10%) of the net profits is set aside to the statutory reserve. Such setting aside may be discontinued by the Ordinary General Assembly when the statutory reserve reaches thirty (30%) percent of the company's capital.

02 The Ordinary General Assembly may, upon request of the board of directors, set aside a certain percentage of the annual net profits to form an additional reserve to be allocated for a certain purpose or purposes as may be approved by the Ordinary General Assembly.

03 The Ordinary General Assembly may resolve to form other reserves to the extent that achieves the interests of the company or ensures the distribution of fixed dividends to the shareholders. The said assembly may also withhold certain amounts from the net profits for establishing social organizations for the company's employees, or for supporting any such existing organizations.

04 The remaining balance shall be distributed to the shareholders as a first payment of dividends equaling at least five percent (5%) of the paid up capital.

The company may distribute interim dividends to its shareholders on a biannual or quarterly basis in accordance with the rules set out by the competent authority.

The Company Announced the recommendation of the Board Of Directors for no distribution of cash dividends to shareholders for the first quarter of the financial year 2023. The reason for the recommendation is due to the Company's willing to focus on its future expansions and projects, and the recommendation will be reconsidered after the start of the commercial operation of the Advanced Polyolefins Company.

Changes of Statutory and Consensual Reserves

There was no change of Statutory and Consensual Reserves

Any punishment, penalty, precautionary procedure or preventive measure imposed on the Company by the Authority or any other supervisory, regulatory or judiciary authority, describing the reasons for non-compliance, the imposing authority and the measures undertaken to remedy and avoid such non-compliance in the future

There is no penalty imposed on Advanced from Capital Market Authority or any other supervisory, regulatory or judiciary authority during 2023.

A description of any conversion or subscription rights under any convertible debt instruments, contractually based securities, warrants or similar rights issued or granted by the company

There is no conversion or subscription rights under any convertible debt instruments, contractually based securities, warrants or similar rights issued or granted by the Company during 2023.

A description of the class and number of any convertible debt instruments, contractual securities, preemptive right or similar rights issued or granted by the company during the fiscal year

There is no convertible debt instruments, contractual securities, preemptive right or similar rights issued or granted by the Company during 2023.

A description of any redemption, purchase or cancellation by the Company of any redeemable debt instruments

There is no redemption, purchase or cancellation by the Company of any redeemable debt instruments

Details of shares and debt instruments issued for each affiliate Company.

No affiliate has issued shares or debt instruments.

Details of the treasury shares held by the Company and details of the uses of these shares:

During the year 2022, shareholders approved to purchase the Company's own shares, with a maximum of 1,500,000 shares, for the purpose of allocating them to the Company's employees within the Employees' Incentive Shares Program. The company has purchased a portion of the total approved treasury shares, with a total number of shares 849,345 shares during the same year.

During the year 2023, shareholders approved to complete the purchase of the Company's remaining 650,655 shares.

BOARD OF DIRECTORS COMMITTEES

Audit Committee

a. Audit Committee Formation

Advanced's Bylaws provides that the Audit Committee shall be formed by the General Assembly consisting from other than executive directors of the Board either from the shareholders or others, the number of the members shall not be less than three or more than five in accordance with the rules provided in the Companies Law and the related implementing regulations. Four (4) Members (three (3) Members from the Board and one (1) member from outside of the Board) were selected for Audit Committee in the General Assembly held on 27th September 2022.

b. Audit Committee Functions

The Audit Committee is responsible for ensuring the integrity and effectiveness of the reports, financial statements and internal control systems. The duties of the Audit Committee shall particularly include the following:

- | | | |
|--|--|---|
| <p>1. Audit Committee Report

- The Internal Audit carried out the planned internal audit as per the schedule to evaluate objectively and independently, the adequacy and effectiveness of the internal control systems. Internal Audit Reports were regularly issued to Audit Committee, updates on controls and systems, progress of implementation of audit recommendations.
- Internal audit also participated in special projects namely risk assessment, review of policy and procedures, review and revision of delegation of authority, participation as internal auditor in Total Quality Management audit.
- Internal audit carried with an expert external consulting firm for Cyber Security IT & Operation Technology (OT) annual audit of existing cyber security controls and compliance with KSA NCA ECC requirements. The detailed report and recommendations has

provided a sound basis for enhancement of effective cyber controls and implementation of recommendations to enhance the existing set up resilient and effective deterrent cyber security system.

- The Committee has, within its competencies as per the Audit Committee Charter, held regular meetings, reviewed the quarterly interim and audited financial statements and audit reports (internal and external).
- The Committee has examined and reviewed the Company's internal and financial control systems, risk management, governance, compliance and controls.
- Based on Executive Management representation and submissions, internal and external audit reports, compliances with law and regulations, there are no material or significant weaknesses reported during Audit Committee meetings in 2023 and the

Executive Management has maintained an effective internal control system that provided reasonable ground to formulate this opinion.

- Audit Committee has issued its report to the Board of Directors, and will issue a report to the annual General Assembly meeting.

External Auditors

- The consolidated financial statements of the Group have been prepared in accordance with International Financial Reporting Standards ("IFRS") that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements that are issued by Saudi Organization for Certified Public Accountants ("SOCPA").
- Review of annual audited financial statements of year 2023 was reviewed along with management analytical review, variance analysis and comparison with previous year(s).
- Auditor report shows that the financial statements

are true and fair and the consolidated statements are free from any material misstatement. External auditor, EY was invited to the meeting who explained the external audit, scope and coverage, findings and their unqualified audit opinion. After review with EY, the audited financial statements were recommended to Board for approval and presenting it to the General Assembly for review and discussion.

- Auditor's fee for the statutory audit and review of the Group's consolidated financial statements (including financial statements of certain subsidiaries) for the period ended 31 December 2023 amounted to SAR 580,000. Auditors' fees for the provision of other services amounted to SAR 247,192.

Clarification of any Difference from Accounting Standards:

The financial statements of the Company during the fiscal year ending on 31 December 2023 were prepared in accordance with the International Financial Reporting Standards (IFRS) approved in the Kingdom of Saudi Arabia.

Accounting records, internal audit system and the Company's ability to continue its activity:

Based on the auditor's report, current market results and data, and future indicators, the Company acknowledges the following:

- That the account records were prepared in true and fair manner.
- The internal control system is on a sound basis and is effectively implemented.
- There is no doubt about the Company's ability to continue its activities.

Company's External Auditor's Appointment:

The 11th Extraordinary General Assembly approved appointing Ernst & Young professional services as the auditor for the company among those nominees based on the recommendation of the Audit committee to review and audit (the second, third, annual financial statements of fiscal year 2023 and first quarter of 2024), and determine its remuneration.

Recommendation of the Board regarding the Company's External Auditor:

No recommendation has been issued by the Board of Directors to replace the External Auditor since its approval in the Extraordinary General Assembly.

Recommendations of the Audit Committee Which are in Conflict with the Decisions of the Board of Directors, or Which the Board Refused to Adopt Regarding the Appointment and Dismissal of the Company's External Auditor, Determining his Fees and Evaluating his Performance or Appointing the Internal Auditor:

There were no recommendation by the Audit Committee that were in conflict with the decisions of the Board of Directors regarding the appointment of the Company's External Auditor, his dismissal, determination of his fees, evaluation of his performance, or the appointment of the internal auditor.

The Results of the Annual Review of the Effectiveness of the Company's Internal Control Procedures, in Addition to the Audit Committee's Opinion on the Adequacy of the Company's Internal Control System:

- The Audit Committee reviews periodic reports on the evaluation of internal control procedures in terms of organization and application, and many periodic and special review processes have been implemented that would ensure the accuracy and effectiveness of performance and quality, in addition to contributing to the review of the initial financial statements and their approval based on the delegated powers granted to it by the Board of Directors, and coordinates the activities of the external supervisory authorities.
- The audit committee reviewed the reports, and there is no significant or fundamental weakness in the Company's internal control systems.

Recommendation of the Audit Committee Regarding the Need to Appoint an Internal Auditor in the Company:

No recommendation was issued from the Audit Committee regarding the need to appoint an internal auditor, due to the presence of the internal audit team in the Company that informs the Audit Committee periodically of its responsibilities, administrative powers and tasks assigned to it.

NOMINATION & REMUNERATION COMMITTEE

Nomination & Remuneration Committee Formation

The Charter of the Nomination & Remuneration Committee (NRC) was approved by the General Assembly and provides that NRC shall consist of number of members between three to five members, whether those members are from the Board (excluding Executive Directors) or persons other than the Board members either from shareholders or others to be appointed or reappointed by the Board.

Nomination & Remuneration Committee Functions

The functions of NRC are provided within the Corporate Governance Regulations and the Charter of the NRC, including the following:

- Reviewing the matters referred to it by the

Board and submitting its recommendations to the Board to issue decisions in connection therewith, or taking decisions by itself if so delegated by the Board;

- The Committee may seek assistance from any experts or specialists, whether internal or external, within the scope of its powers. This shall be included in the minutes of the Committee meeting together with the name of the expert and his relation to the Company or its Executive Management;
- Preparing a clear policy for the remunerations of the Board members and its committees and the Executive Management, and presenting such policy to the Board in preparation for approval by the General Assembly, provided that such policy follows standards that linked to performance, and disclosing and ensuring the implementation of such policy;

- Clarifying the relation between the paid remunerations and the adopted remuneration policy, and highlighting any material deviation from that policy.

- Periodically reviewing the remuneration policy and assessing its effectiveness in achieving its objectives;

- Providing recommendations to the Board in respect of the remunerations of its members, the committees members and Senior Executives, in accordance with the approved policy;

- Suggesting clear policies and standards for membership of the Board and the Executive Management;

- Providing recommendations to the Board for the nomination or re-nomination of its members in accordance with approved policies and standards, taking into account that nomination shall not include any person

convicted of a crime involving moral turpitude or dishonesty;

- Preparing a description of the capabilities and qualifications required for membership of the Board and Executive Management positions;

- Determining the amount of time that the Board director shall allocate to the activities of the Board;

- Annually reviewing the skills and expertise required of the Board members and the Executive Management;

- Reviewing the structure of the Board and the Executive Management and providing recommendations regarding changes that may be made to such structure;

- Annually ensuring the independence of Independent Directors and the absence of any conflicts of interest if a Board member also acts as a member of the Board

of directors of another Company ;

- Providing job descriptions for the Executive, Non-Executive and Independent Directors and the Senior Executives ;

- Setting up procedures to be followed if the position of a member of the Board or a Senior Executive becomes vacant; and

- Determining the strengths and weaknesses of the Board and recommending remedial solutions in line with the Company's interest.
